

ITALIA - ITALY

....and Sicily

**Italy is a peninsula in the Mediterranean sea,
in the South of Europe.**

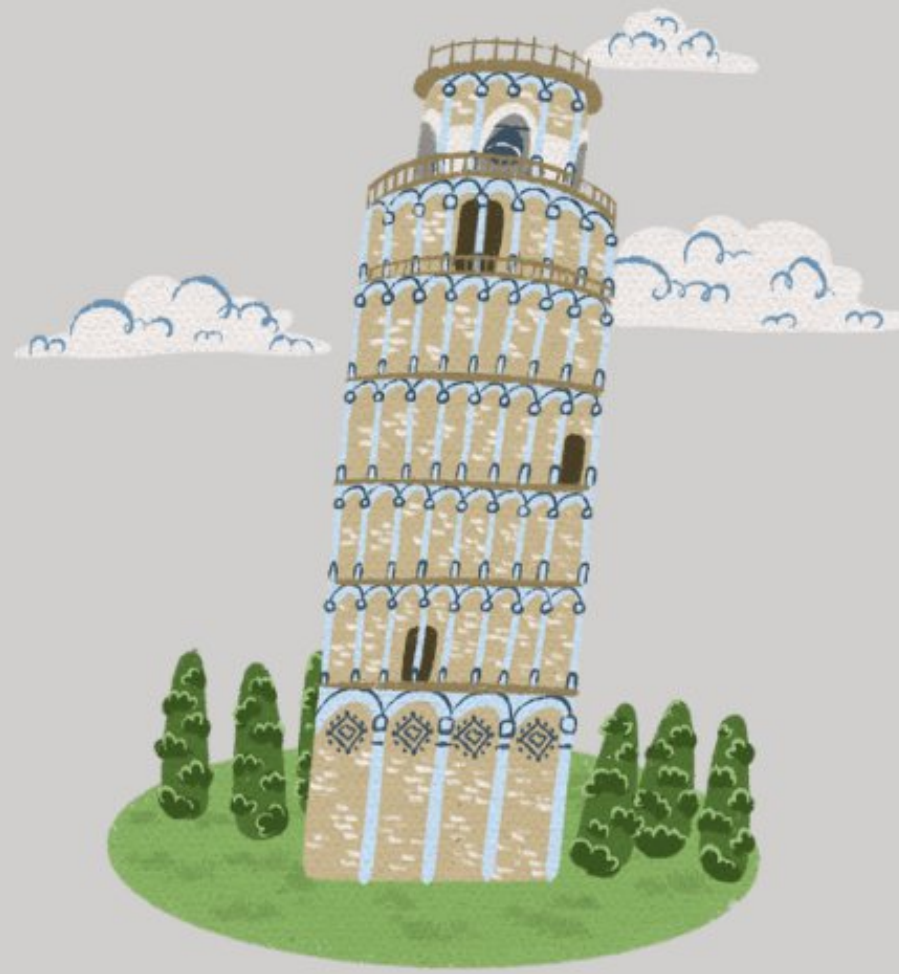

It has the shape of a boot.

Italy has many, many small islands, like Capri, Lipari or Lampedusa, but the biggest islands are Sardinia and Sicily.

Italy is beautiful. There are high mountains, active volcanoes, rivers and forests, rocky and sandy beaches. There are many parks to protect Nature.

**Italy is well known for its
monuments and its food.**

**Some famous artists and scientists
from Italy are:**

**Dante Alighieri, Galileo Galilei, Leonardo da Vinci,
Michelangelo Buonarroti**

**We live in Sicily.
It's a triangular island and
this is its flag.
The symbol with three legs
is called TRINACRIA and it
has Medusa's head in its
center.**

SICILY

THANK YOU! GRAZIE!

**The students of 3 C,
I.C. VERGA DI VIAGRANDE**
